Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson et al (6464169) in view of Sprenger et al (5395075).

Johnson shows stairs 16 in a stowage unit. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the stairs of Johnson et al retractable as taught by Sprenger et al since it would provide more room and means to seal off the upper level as taught by Sprenger et al. see column 6 of Sprenger et al.

- 2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
